

All Call

January 7, 2009

I am calling to make sure all 8th grade parents are aware that a deadline is coming up for registering their students for the 8th grade Technology Proficiency Test. This test is **optional**. Students who pass with 80% will be exempted from taking the *Software Technology Applications I* class in high school. All students wishing to take the test must be pre-registered. The test will be held at IMS after school in room 802 on January 21, 22, 28 and 29. Students were given a letter to take home with the information on December 15. If you did not receive that information please check the IMS website for complete information and registration details.

Students must be registered by January 12, 2009. **There will be no exceptions.** Walk-ins to the test will not be accommodated as they will have no accounts created.

Thank you,

Corrine DeRosa
